CRO-TOX

INSURE YOUR SEED CORN AGAINST ATTACKS OF CROWS AND PHEASANTS

All growers of seed corn are rapidly realizing the fact that crows, pheasants, birds and other corn-pulling birds and pests are causing havoc and damage to corn while it is germinating and rooting, and that protection must be given growing corn during this stage. Thus, the ever-increasing demand for an efficient remedy to combat this tremendous loss has prompted the research and development and perfection of our "CRO-TOX" Repellant.

Small can treats 1 bushel of corn \$1.10

Large can treats 2 bushels of corn \$1.65
